MASTER PALM® RUBBER BACKING PADS

Rubber Backing Pad

Master Palm rubber backing pads are used by its sanders and polishers. A backing pad is a rubber disc which is secured to a spindle which in turn is attached to a sander or a polisher which rotates the spindle. An abrasive disc or polishing disc is secured to the backing pad. Master Palm supplies three types of backing pads available, respectively, screw-lock backing pad, rolock backing pad, and punch-lock backing pads.

Screw-Lock Backing Pad

Master Palm screw lock Backing pad provides easy screw-on action to attach different types of disks with sanding or surface paper, polishing or buffing accessories. Just screw and mount.

Rolock Backing Pad

Rolock backing pad provides quick-change of different types of discs used for sanding and polishing. Just mount the accessory disc to the backing pad directly.

Punch-Lock Backing Pad

Master Palm punch-lock backing pad provides click-on mounting of different types of discs used for sanding and polishing. Just tab, click and mount easily.
